MAS-LC ANIMAL SCALE

Multi-Animal Scale System

20,000 Pound Capacity from 13 x 8 feet to 22 x 10 feet

The MAS-LC provides a reliable and accurate weight for ranchers and processors that prefer a load cell based weighing system. This scale combines the accuracy of fully electronic weighing technology with steel I-beam weighbridge designs typically found in heavy capacity vehicle weighing scales. With a wide range of sizes, the MAS-LC is the right choice for any stationary weighing application.

Racks and Gates

Three inch thick wall tubing for the sectional uprights with two inch horizontal thick wall tubing connecting the uprights. The powder-coated 11 gauge steel plate is four feet tall and is above the structural I-beam. This will ensure reliable containment.

Stationary Load Cell Scale	
13 x 8ft	15 x 8ft
17 x 8ft	19 x 8ft
22 x 8ft	22 x 10ft

Heavy-duty latch assembly

Load cell enclosure

Junction box enclosure

X-Plank flooring

X-Lug flooring

Flooring

The MAS-LC offers unmatched traction for animals in wet and slippery conditions with either X-Lug or X-Plank flooring. Both styles are made from durable, recycled plastic and rubber material that will never rot or harbor bacteria and moisture like wood flooring. X-Lug flooring provides a deep, aggressive tread and X-Plank flooring utilizes a less-aggressive, wheel-accessible tread.

Legal for Trade

Like all MAS series scales, the MAS-LC is certified for commercial use in both the United States and Canada. Scales are designed to provide accurate weights, making it Legal for Trade. Add a choice of digital weigh centers, printers or remote displays for an easy-to-use system that will provide years of proven performance.

Optional

- Ticket printer
- Tape printer
- 590AG indicator
- 920i[®] weigh center
- 920i AC stand alone indicator
- 920i DC stand alone indicator
- Light duty enclosure
- Pedestal
 Coto configuration
- Gate configuration options
